

Sport and P.E.

Team sports provide opportunities for children to develop a healthy competitive spirit and encourage children to work together.

In addition to our teaching staff we have **specialist coaches** who regularly work with the children. **Sports premium funding** has enabled us to offer a greater variety of sports such as judo, fencing, gymnastics, street dancing, football, rugby, athletics, basketball and many more.

The high level of professionalism the coaches bring enable the children to excel. They always leave their sessions with a sense of achievement, a higher level of expertise and most importantly a real enjoyment of the sport.

They need to experience a sense of sportsmanship. P.E. and games are taught as part of the National Curriculum. We offer children opportunities to be involved in a wide range of sports.

Music

Musical activities happen every day in school, whether as a school or in classes or as individuals. We have specialists in from **Bury Music Service** to lead the KS1 choir and provide whole class instrumental tuition in the classes. Individual instrumental tuition is now a private concern to be paid for by parents. Further details are available from the office. Mrs Branch leads the KS2 choir.

Fitness outside

We have recently built a running track around the school playing field to enable all children to complete the daily mile. Also new outside fitness zones have been installed in the KS1 and KS2 playgrounds. This investment in physical resources will provide the children with a wonderful environment to excel in P.E.

All children in Year 4 receive 20 one hour **swimming sessions**.
