English

Year 3 have been exploring poetry using the story 'The Street Beneath my Feet' as their inspiration. The book shows the journey from the street all the way down to the inner core, showing all the different things you would find underground. Year 3 have been creating brilliant stanza poems, using senses to really help describe what it would be like if they were to travel to the center of the earth. We have focused on oracy within this topic and Year 3 are really enjoying being able to present their poems at the end of each lesson.

History

In our history topic, Year 3 have been enjoying learning about the history of Bury. They have built a timeline to help them envision all the changes that happened in Bury since the Romans invaded Britain.

They have researched the Industrial Revolution and understood how much of an impact this had on Manchester. Throughout the rest of the topic they will be learning about Sir Robert Peel and how Bury Market is so popular throughout the United Kingdom.

RE

This half term we have been exploring the question 'What do Christians learn from the Creation Story?'. Year 3 have read new verses of the story and have developed a deeper understanding of what God hopes for Christians. The class have discussed ways in which we can look after the planet, we can do this by picking up rubbish, recycling, cutting down on food waste and walking/cycling whenever possible.
