

All Saints Primary School: Year 4 Update

We've had an engaging term at school, and we are excited to share some of the highlights with you.

In English, the children have been diving into the intriguing story of *Varjak Paw*, a cat on an adventure that sparks their imagination and enhances their reading skills. It's been lovely to see their faces light up as they discuss the characters and themes!

In Maths, we have been focusing on decimals, which has prompted some great problem-solving activities. The children are really getting the hang of it.

Our Science lessons have been equally inspiring, as we have explored classification keys. The children have been learning how to categorise living things in a systematic way, and it's fantastic to see their curiosity in action! We have been discussing ways on how to look after the environment and which animals need looking after in our local area. The children enjoyed learning all about bees and loved tasting different types of honey.

Additionally, we were fortunate to have Louise from Bury and Bolton Swifts come in to talk about swifts and swallows. The children were fascinated by the birds' behaviours and habits, sparking some lively discussions.

Lastly, a big shout-out to the children for their wonderful participation in the VE Day celebrations. They truly enjoyed remembering this significant moment in history.

Please have a look at our page on the school website for more information about our learning.
