

Good Evening,

It has been another busy and productive week for the children, who have worked extremely hard across all subjects.

In **Science**, we explored pulleys and how they overcome gravity. The children even had an opportunity to make their own pulley. In **English**, inspired by our class novel *The Adventures of Odysseus*, the children wrote some detailed descriptions of how Odysseus had to venture into the Land of the Dead.

In **Mathematics**, the focus remained on developing addition skills, both mentally and through written methods. In **PE**, the children continued to build on their fencing techniques, working on the lunge move, as well as developing their football skills with Coach Owen.

In **Music**, with Mr Price, the children have been continuing to develop their skills with their violins.

Thank you for your continued support in ensuring that your child(ren) bring their home reading books daily and complete their weekly tasks on Century Tech. If they score below 60%, please encourage them to have another go and try to beat their previous score. These activities reinforce and strengthen our classroom learning.

This week's homework on Century Tech:

- **Maths**
 - 3-Digit: Column Addition (with Exchanging) [PM2.05]
 - 4+ Digit: Column Addition [PM2.22]
- **English**
 - Skimming and Scanning [PR1.01]
 - Reading the Question and Text [PR1.02]

If you have any questions or concerns about homework, please don't hesitate to get in touch.

Wishing you all a lovely weekend,

Mr Yates
